Signage

In front of main gate, left side

In front of the Portico, Left side, 180 degree to the Main Building

At the junction of Main Building and way to Central Library, 180 degree to the background building

In front of Physics NLT, 180 degree to the Baker Laboratory

At the entrance of Baker Laboratory, 180 degree to the Baker Laboratory

At the junction of Baker Laboratory and Derozio Building, 90 degree to the Baker Laboratory and 180 degree to the Derozio Building

At the entrance of Derozio Building, 180 degree to the Derozio Building

At the entrance of Derozio Auditorium, 180 degree to the Derozio Building

At the entrance of N.S Building, 180 degree to the entrance of N.S Building

## Contents

of
Signage:

Total height of the signage remains similar in all cases, but the plate length and clearance from below for the first three signages is that of the first signage mentioned in the picture. Breadth of the plate varies with the contents of the signage and is individually mentioned. Font size also varies in each plate with the contents of each plate always with a reference to the minimum of $1 / 200$ times of the optimal viewing distance.

Signage: 2

Signage:2, Angular Deviation
