TRENDS IN SURFACE SCIENCE & RELATED AREAS (TSSRA-2014; Thursday, July 24, 2014)

JOINTLY ORGANIZED BY

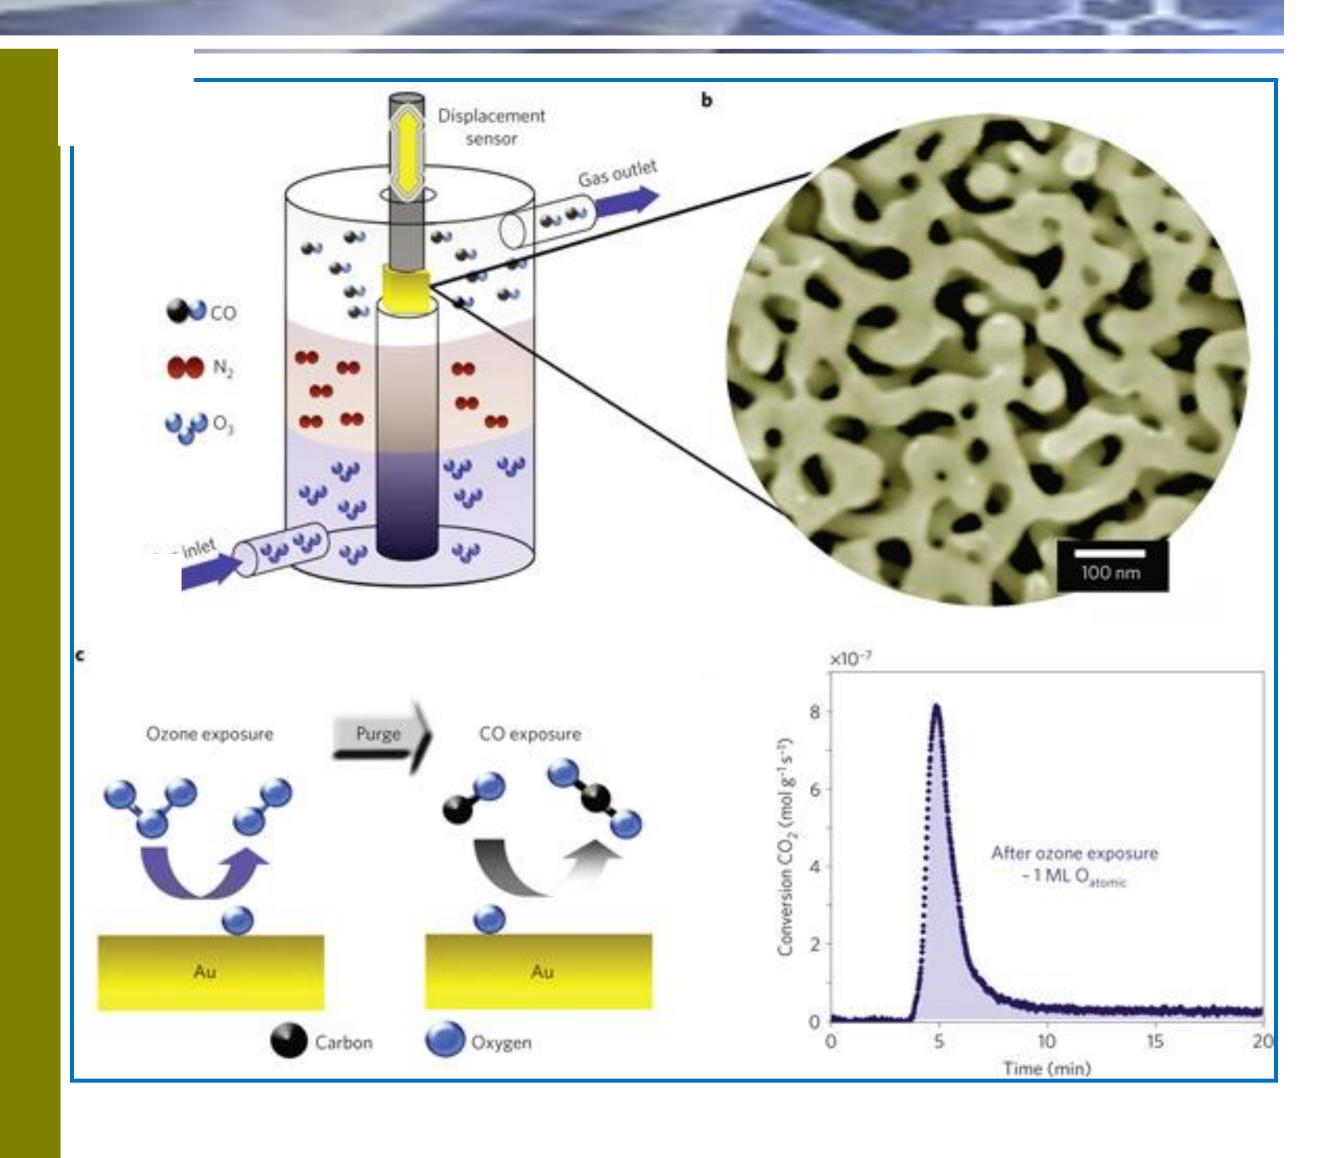

Department of Chemistry, Presidency University, Kolkata
-&

Indian Society for Surface Science & Technology

BACKGROUND

Indian Society for Surface Science and Technology (ISSST) organizes scientific seminars, workshops, conferences on surface science and related areas from time to time. Surface Science has fundamental importance as well as tremendous application potential. This year, ISSST and the Department of Chemistry, Presidency University, Kolkata have agreed to organize a one day seminar at Presidency University, Kolkata to generate meaningful interaction among the scientists and students to make them interested and motivated in research in the areas of surface science. The seminar is also expected to help improve the teaching of the subjects at the undergraduate and postgraduate levels.

SCOPE

The present conference will provide a platform to the scientists and technologists of various hues to meet, exchange, and share their views, experience, expertise and specialized knowledge in the field of Surface Science and Technology. The deliberations will cover various facets of Surface Science that would mainly include the followings: Interfacial Phenomena & Adsoprtion, Membranes & Bio-mimetics, Excited state & Oscillatory processes, Colloids & Surfaces, Micelles, Emulsions & Microemulsions, Gels & Network materials, Polymers, Supramolecular Assemblies, Nanomaterials and and Nanotechnology.

Probable Speakers:

Prof. A. K. Nandi (IACS)

Prof. A. Pal (IIT, Kharagpur)

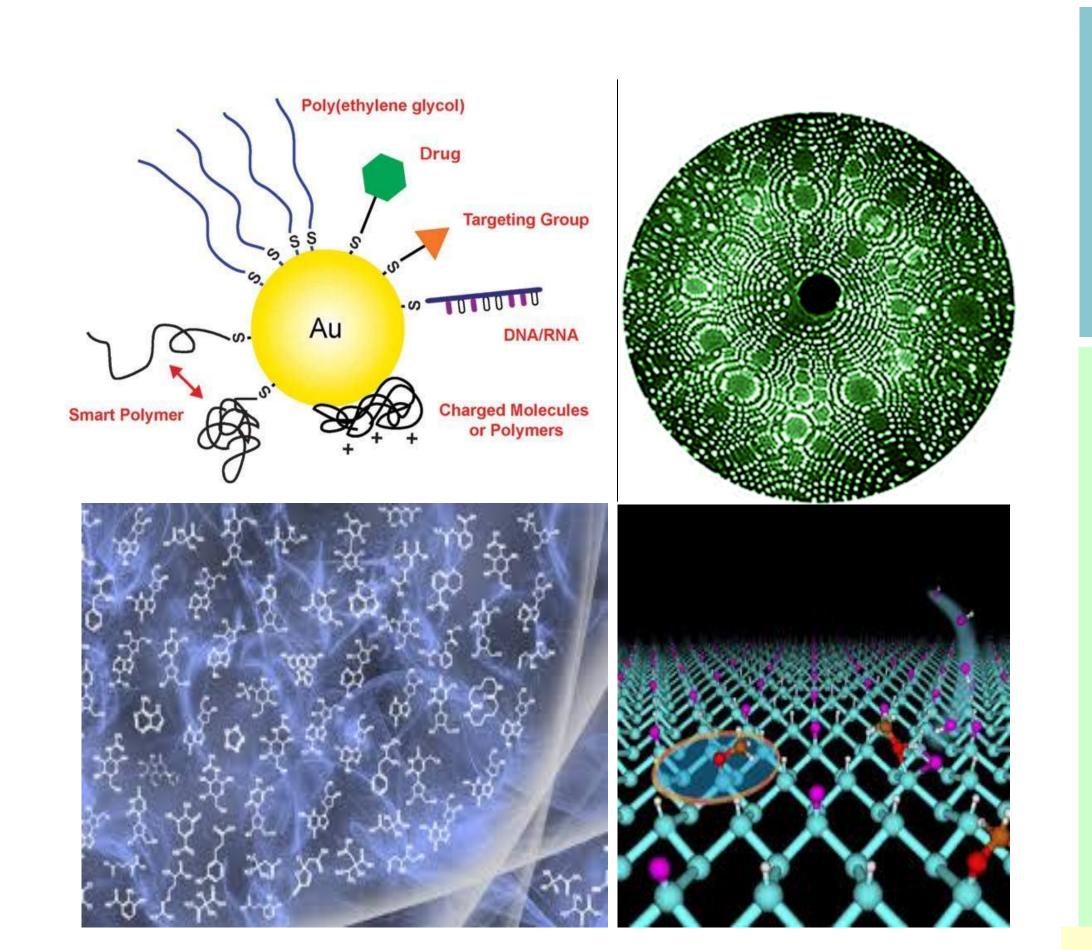

Prof. A. K. Rakshit (ISSST)

Dr. S. Dutta Sinha (JU)

Mr. A. Pan (JU)

Mr. P. Guha (NBU)

Orbit Research (New Delhi)

Addresses for correspondence

Prof. SC Bhattacharya
(Convener, TSSRA-2014)
