

**Report of the In Service Training Program on Public Policy and Governance for
WBCS (Exe.) officers, 4 September 2017 to 9 September 2017, Presidency
University, Kolkata.**

The In Service Training Program on Public Policy and Governance for WBCS (Exe.) officers was organised at Presidency University from 4 September 2017 to 9 September 2017.

The five day program included lectures and a field visit to the head office of Bandhan Bank. The resource persons, from different institutions all over India, included leading academics, professionals and practitioners.

The participating WBCS officers provided a very positive feedback for the entire program. In particular, they found the content of the program very useful and pertinent in the context of their work. The participants further also appreciated the quality of resource persons, their presentations and the discussion during the lectures. The participants expressed the view that the content was well framed and organised and introduced them to new concepts/ideas that would help them serve the government better.

The participants while appreciating the program suggested that the content can be made more West Bengal specific and include more field visits, case studies and success stories.

Memorandum of Understanding on Academic and Research Cooperation

between

The School of Oriental and African Studies
University of London, UK

and

Presidency University, Kolkata, India

SOAS (The School of Oriental and African Studies), University of London, hereafter referred to as SOAS, and Presidency University, hereinafter referred to as PU, considering their common interest in promoting the mutual cooperation in the area of education and research, both parties, therefore, wish to expand the basis for friendship and cooperative educational exchange and have set forth the following Memorandum of Understanding (MOU)

Article I: Purpose

The purpose of this MOU is to develop academic and educational cooperation on the basis of equality and reciprocity and to promote relations and mutual understanding between both universities.

Article II: Scope of the Cooperation

Both parties undertake to promote and develop academic cooperation as follows:

- Exchange of academic and administrative staff and students.
- Cooperation in research and the presentation of its results.
- Exchange of academic materials, publications and other scientific information.
- Collaboration and exchange of resources and staff in the area of library and other auxiliary services.
- Other educational and academic exchanges to which both universities agree.

Article III: Financial Arrangement

- Both parties agree that all specific arrangements and plans for activities are to be negotiated and are dependent on the availability of funds.
- Both parties agree to seek financial support from national and international organisations for the cooperative activities to be undertaken as stated under the terms of this MOU.

Article IV: Agreement of Implementation

The details of this agreement are to be decided by further consultation between the two institutions.

Article V: Intellectual Property Rights and Publication

- The parties will share all data and research findings, patent rights, copyrights and other intellectual property rights to any discoveries, inventions and products resulting from this MOU.
- Both parties must give written approval for the utilisation and publication of the data and research findings.
- Detailed management of the Intellectual Property Rights and Publication shall be defined for each activity agreed in Article IV.

Article VI: Settlement of Differences

The differing viewpoints and interpretations of this MOU shall be settled amicably by mutual consultation or negotiation.

Article VII: Amendments, Duration and Termination

- Amendments to this MOU can only be made by mutual consent of the two parties.
- This MOU shall take effect from the date of its signing and be valid for the duration of five (5) years from that date. It will be reviewed by both parties no later than six (6) months before the end of the MOU.
- This MOU may be terminated by either party by written notice at least six (6) months in advance. Such notice of termination will not interfere with cooperative programmes currently under way. Such programmes will be allowed to continue until their conclusion.

This MOU is prepared in English and two (2) original copies of this MOU have been produced. Both copies are authentic. As witness to their consent to this MOU, the appropriate authorities hereunto provide their signatures:

Memorandum of Understanding on Academic and Research Cooperation

between

Tata Medical Center, Kolkata
and
Presidency University, Kolkata

ASSISTANT
REGISTRAR
PRESIDENCY UNIVERSITY
KOLKATA

This Memorandum of Understanding (MOU) sets for the terms and understanding between the **Presidency University, Kolkata** and the **Tata Medical Center, Kolkata** primarily focusing on the following points:

Aim : Establish a collaborative joint research and academic program in Cancer within Kolkata

Goals

- Create a virtual cancer centre that integrates basic science, clinical and translational research
- Evolve a strategy to strengthen the impact of cancer research in Kolkata, regionally, nationally and internationally
- Develop an interactive, multidisciplinary and stimulating environment for current investigators at both institutions and attract new talents to the Kolkata cluster
- Share current resources and subsequently develop new joint programs to enhance overall research capacity
- Attract joint national and international funding
- Develop an integrated training program for large data analyses with respect to cancer
- Develop joint educational program to promote young potential investigators and foster the development of future leadership in Cancer Research

Rationale

Biological research, particularly in countries like ours, need to focus on making an impact on healthcare. By next decade, 1% of all cancer patients in the world will be from India. Unless we start innovating in all aspects of cancer care, from diagnosis to therapy, the highly curative strategies being developed in the west will become increasingly impractical and unaffordable. To develop indigenous solutions, we need a close partnership between scientists of different expertise, clinicians, and industry. The Tata Translational Cancer Research Centre (TTCRC), embedded within the Tata Medical Center (TMC), offers such an opportunity. To maximize resources, in equipment, environment as well as personnel development we aim to establish a virtual "Kolkata Cancer Hub" with a partnership between Tata Medical Center and Presidency University.

Stakeholders

Tata Medical Center (TMC) is a dedicated, not for profit, tertiary care cancer centre and the only one of its kind in Eastern India. Though only open for a little over 3 years, the hospital has already moved to expand its facilities. By 2017-18, around 450 in-patient beds will cater to approximately 50,000 new cases of cancer

per year. The TCS-DBT Tata Translational Cancer Research Centre (TTCRC) has been embedded into the concept of TMC right from the start. Its remit is to develop tools and technology designed to make modern cancer care affordable and improve outcomes of patients in eastern India. TTCRC is a joint partnership with TMC, Department of Biotechnology (DBT) and Tata Consultancy Services (TCS).

Presidency University, Kolkata was one of the first institutes of Western-type higher education in Asia, established in 1817. Over the last hundred years and more, Presidency College, under Calcutta University has remained Bengal's pre-eminent centre of higher learning. The formal establishment of Presidency University in July 2010 allows it to refashion its venerable traditions and continuing strengths into a leading institution of the future. The '**Department of Biological Sciences (DBS)**' is the youngest department in almost 200 year's history of this institution. This newly formed department has been restructured by combining three century old departments - 'Botany', 'Physiology' and 'Zoology' with three newer departments - 'Biochemistry', 'Biotechnology', 'Molecular Biology and Genetics' in an aim to modernize curriculum as well as research milieu. Innovation in medicine, and in particular cancer requires a systems approach. Presidency University brings strengths in Chemistry, Physics, Mathematics, Statistics and Sociology to this partnership to facilitate the development of "Systems Medicine".

Action Plan to Develop the Hub

1. Joint Research Meeting between members of faculty once every 2 months.
2. Presidency Research Leads (PRL), who develop collaborative approaches within this cluster, will be given honorary research status at TTCRC. This will allow access to all facilities available to TTCRC staff and direct collaborative opportunities with clinicians.
3. PRL with honorary status may apply to the TMC IRB for direct access to biobank samples
4. For PRL, costs of procurement of samples or use of equipment will be the same as being charged to TMC/TTCRC staff (cost-only model)
5. PRL may be asked to teach or talk at courses organised by TMC/TTCRC staff
6. TMC/TTCRC staff, as appropriate, will be given adjunct faculty positions at Presidency University. This will allow access to all facilities available to PRL staff and direct collaborative opportunities.
7. TMC/TTCRC staff with adjunct positions may be required to teach or talk at courses organised at Presidency
8. Priority will be given to develop a joint PhD programme, with students registered under Presidency University and supervised by both PRL and TMC/TTCRC staff.
9. A joint grant application, with other partners, will be made to the Department of Biotechnology for the development of joint facilities to strengthen this cluster over the next 5-years.
